WASH

BUCKETS

Essential Car Wash Bucket for Effective Cleaning

Available in:   

Made from durable HDPE material

Metal handle for easy transportation

Maximum capacity of 20 litres

Convenient measurement marking on the

The Detailing Bucket – is the essential tool you need for a professional car wash. Made from durable high-density polyethylene (HDPE) material, this bucket is built to last. With convenient measurement markings on the side, you can easily pour in the right amount of water for each wash, without wasting a drop.

The ultimate professional grade 20 litres bucket designed specifically for washing car.

BUCKET

Available in:

BUCKET LID

Featuring a two-piece screw closure system, the fixed piece securely attaches to the bucket's edge while the cover screws on for added protection.

SEPARATOR

Available in:

This innovative product is designed to separate dirt and debris from clean water, ensuring that your cleaning solution stays effective for longer. When washing your car with a glove or sponge, simply rinse it in the bucket equipped with our separator. As the dirt settles at the bottom, it won't mix back into the clean water.

HANGER

The Bucket Hanger attaches effortlessly to the side of any bucket and accommodates various brushes, gloves, and other detailing tools.

This tool organizer for buckets is designed to optimize functionality and ease of use.

BUCKET DOLLY

Equipped with five durable wheels that rotate 360 degrees, it allows for easy pushing, pulling, and moving the bucket in any direction. Thanks to its excellent maneuverability, the cart remains stable even with a full bucket and glides smoothly over uneven surfaces like cobblestones, grass, or gravel, making it perfect for outdoor use. Two of the cart's five wheels are equipped with brakes to prevent accidental movement, especially on sloped terrain.

BUCKET DOLLY ADAPPTER

Is an aluminum connector that allows two dollies to be combined into one cohesive set. This enables the simultaneous transport of two buckets, significantly streamlining the vehicle washing process, especially when using the “two bucket” method.

STORM

Wash

designed to speed up the car washing process. Crafted from delicate and dense microfiber. It is guaranteed to leave no scratches on vehicle's varnish

HURRICANE

Wheel

specialized rim cleaning glove. With a large washing surface and high absorbency, it makes cleaning rims quick and easy.

BREEZE

Interior

perfect for cleaning all kinds of surfaces in your car - including plastic, rubber, leather and upholstery. It stays securely on your hand.

SCRUBBER PAD

Interior

Available in: **1** **3**

Dimensions: 13 x 8 cm

Grammage: 840 gsm / 320 gsm

Efficient cleaning of plastic, rubber, leather

Made from Korean microfiber

It's perfect for tackling even the dirtiest cars with ease. Gentle on your car's finish and highly effective at removing dirt and grime. On one side it features a modern fiber with exceptional cleaning properties, and on the other a traditional microfiber. It's perfect for quick and efficient cleaning of plastic, rubber or leather upholstery. Its unique design allows for the safe removal of even the toughest dirt from all structural surfaces.

PURE VIEW

Glass Mitt

Pure View is a microfiber glove with a double-sided structure, designed for the care of glass surfaces and more. It does not shed, nor does it leave microfibers or streaks on the cleaned surface. Thanks to the high-quality yarn used in its construction, it offers high water absorption and maximum product durability.

The glove is edged with two types of microfiber. One side features a waffle structure, intended for preliminary cleaning using a glass cleaner. The other side has a smooth surface, ideal for final polishing of glass, ensuring uniform cleaning without streaks.

Ideal for internal window

surfaces Easy access to difficult

areas

No streaks

TYPHOON

Wash Pad

Faturing a large washing surface and exceptional absorbency, this wash pad is perfect for tackling even the dirtiest cars with ease. Its ergonomic shape ensures a comfortable grip, while its microfiber material is both gentle on your car's finish and highly effective at removing dirt and grime.

BRUSHES

CLASSIC

Rims, Prewash, Interior

Our Detailing Brush CLASSIC is the perfect tool for cleaning rims, prewash, and car interiors. With a varnished plastic handle and natural/synthetic bristles, this brush is designed to absorb chemicals for a more efficient cleaning process.

Say goodbye to using multiple brushes for different cleaning tasks. Our Detailing Brush CLASSIC is what your car cleaning needs.

Available in:
4 sizes: 16/24/30/40 cm
set 3 pack: 16/24/30 cm

BLACK

Rims, Engine, Interior

This brush is specially designed to provide high cleaning power, making it perfect for use on everything from rims and sills to recessed areas and engine chambers.

Made with a durable varnished plastic handle and synthetic bristles, this brush is built to last and provide excellent performance.

Available in:
4 sizes: 16/24/30/40 cm
set 3 pack: 16/24/30 cm

ALBINO

Prewash, Interior, Leather

The ultimate tool for achieving a professional level of cleanliness for your car or motorcycle. With its soft synthetic white bristles, this versatile brush gently and effectively cleans your vehicle's interior, leather, and prewash areas without scratching or damaging any surfaces.

Available in:
4 sizes: 16/24/30/40 cm
set 3 pack: 16/24/30 cm

ORANGE

Prewash, Interior, Leather

The Albino Orange car detailing brush is a versatile and effective tool designed to maintain the cleanliness and appearance of your car's interior. Made with gentle synthetic bristles, this brush is perfect for pre-wash and reaching hard-to-clean areas like leather decorations and the steering wheel.

Available in:
4 sizes: 16/24/30/40 cm
set 3 pack: 16/24/30 cm

RUBBER CLASSIC

Rims, Prewash, Interior

Is an indispensable tool for various car cleaning tasks. The rubber handle offers a comfortable and secure grip, making it easier to clean hard-to-reach areas without risking damage to the paintwork. Additionally, the rubber handle is designed to avoid scratching delicate car surfaces during cleaning. The bristles, made from a blend of natural and synthetic materials, ensure gentle yet effective cleaning.

Available in:
3 sizes: 16 / 24 / 30

RUBBER BLACK

Rims, Engine, Interior

This brush is specially designed to provide high cleaning power, making it perfect for use on everything from rims and sills to recessed areas and engine chambers. Made with a durable varnished rubber handle and synthetic bristles, this brush is built to last and provide excellent performance.

Available in:
3 sizes: 16 / 24 / 30

RUBBER ALBINO

Prewash, Interior, Leather

This brush is ideal for cleaning hard-to-reach places in your car's interior, like the steering wheel and leather surfaces.

The rubber handle reduces the risk of damaging your car's paintwork while cleaning hard-to-reach areas. The synthetic bristles are white and come in three sizes.

Available in:
3 sizes: 16 / 24 / 30

RUBBER ORANGE

Prewash, Interior, Leather

This brush with rubber grips, is the perfect tool for detailers who want to achieve a professional-level of clean. The brush's delicate bristles, made of synthetic materials, are ideal for pre washing and cleaning delicate surfaces in the car's interior, such as leather elements and hard-to-reach areas. The rubber handle is designed to reduce the risk of damaging paintwork, making it an excellent choice for cleaning rims and other recessed areas.

Available in:
3 sizes: 16 / 24 / 30

SHORT

Rims, Prewash, Interior

The most versatile brush in our lineup with bristles that are now even shorter for better cleaning action and foaming power. This brush is perfect for cleaning rims, prewash, and car interiors. The black varnished plastic handle and natural/synthetic bristles are designed to absorb chemicals for a more efficient cleaning process.

Available in:
3 sizes: 16/24/30 cm
set 3 pack: 16/24/30
cm

GREY

Rims, Engine, Interior

With its high cleaning power and increased bristle softness, it's perfect for pre-washing and cleaning rims, as well as more delicate work on the interior of your car, such as cleaning leather elements. The detailing brush has a handle made of varnished plastic, providing a comfortable grip for precise control while cleaning. The synthetic bristles are gentle on surfaces, making it ideal for use on the rims, pre-wash, and car interior.

Available in:
4 sizes: 16/24/30 cm
set 3 pack: 16/24/30
cm

ULTRA SOFT

Interior

These brushes are specifically designed with ultra-soft NATURAL bristles to ensure gentle yet effective cleaning without causing any damage to your precious vehicle's paintwork.

With their ergonomic design and flexible bristles, these brushes effortlessly remove dust, dirt and grime from the tightest corners and delicate areas, leaving your car looking brand new. Unlike traditional brushes that can leave behind scratches, these ultra soft detailing brushes gently lift away contaminants without leaving a trace.

Available in:
2 sizes: 20/23 cm

STIFF

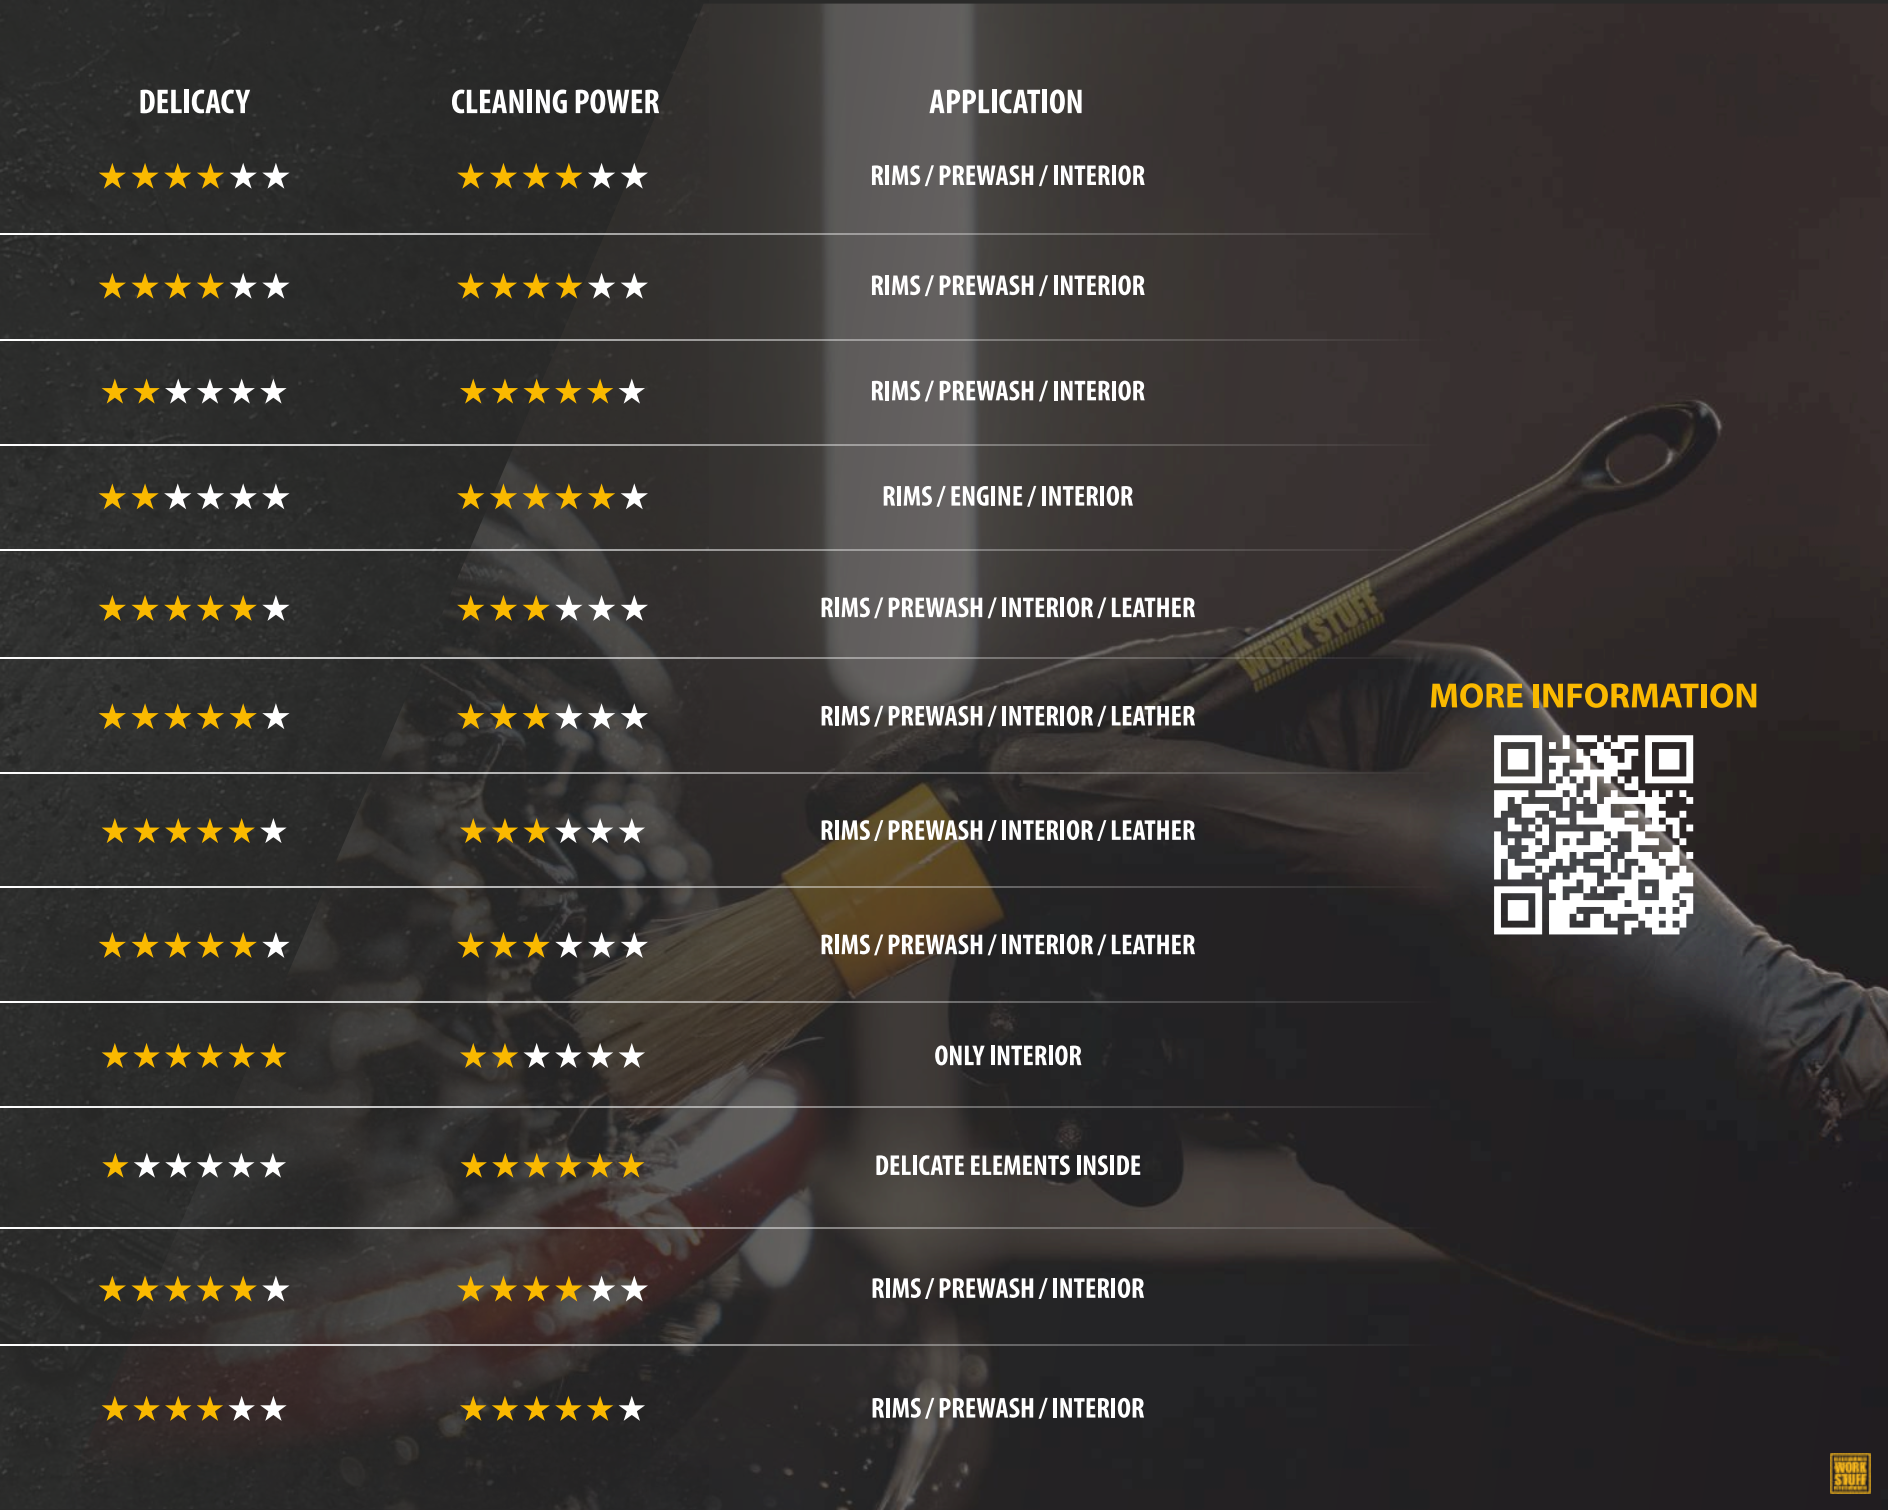

Wheels, Engine, Exterior

The ultimate cleaning tool designed to tackle even the most stubborn grime with ease. With its hard bristles and resistance to strong chemicals, our brush is the perfect choice for all your tough cleaning needs. Whether you're dealing with persistent dirt on your car's exterior or grease buildup in the engine bay, our Detailing Brush STIFF is up to the task.

Please note that this brush should not be used on scratch-prone surfaces, such as car bodies, piano black elements, piano black rims or gloss black.

Drying towel

The ultimate solution for quick and effective drying of medium to large cars. Made with high-quality microfiber and a unique Korean “Twisted Pile” fiber, this towel boasts superior absorbency and quick-drying capabilities, ensuring a professional finish with no unsightly streaks or scratches on your car’s paintwork. Our dense and delicate microfiber structure is safe for all types of varnish, making it the perfect choice for car enthusiasts and professionals alike. Designed with a laser-cut WORK STUFF logo and fabric trim on the edges, our towel offers a polished finish that adds to its premium look and feel.

BEAST

Drying towel

- Size – 70 / 50cm
- Density – 1100g / m²
- “Plush” microfiber
- High absorbency
- Dense and delicate microfiber
- Safe for paintwork

Is the perfect car drying towel for any detailer or car enthusiast. Made from high-quality plush microfiber, this towel boasts an extremely high absorbency rate, making it ideal for drying small to medium-sized cars quickly and effectively. Its dense yet delicate microfiber structure ensures that it won't leave any scratches on your vehicle's paintwork, making it safe to use on any type of varnish.

GENTLEMAN BASIC

Exterior / Interior / Applying

Available in:    

Introducing GENTLEMAN Basic microfiber towels, perfect for efficient and effective car and motorcycle detailing. Ideal for a range of tasks, from waxing and applying coatings to using Quick Detailers both inside and outside of your vehicle. GENTLEMAN Basic boasts a size of 40/40cm and a density of 350g/m², ensuring a dense and delicate microfiber cleaning experience.

 600g/m²

WORKER

Exterior / Interior / Applying

It is a high-quality cleaning cloth designed for the care and maintenance of various elements in your car. This microfiber cloth is perfect for use with waxes, polishing pastes, Quick Detailers, Quick Waxes and other works inside your car. With a laser-cut WORK STUFF logo our microfiber cloth is a premium product that delivers exceptional results.

Available in: 1 5 10

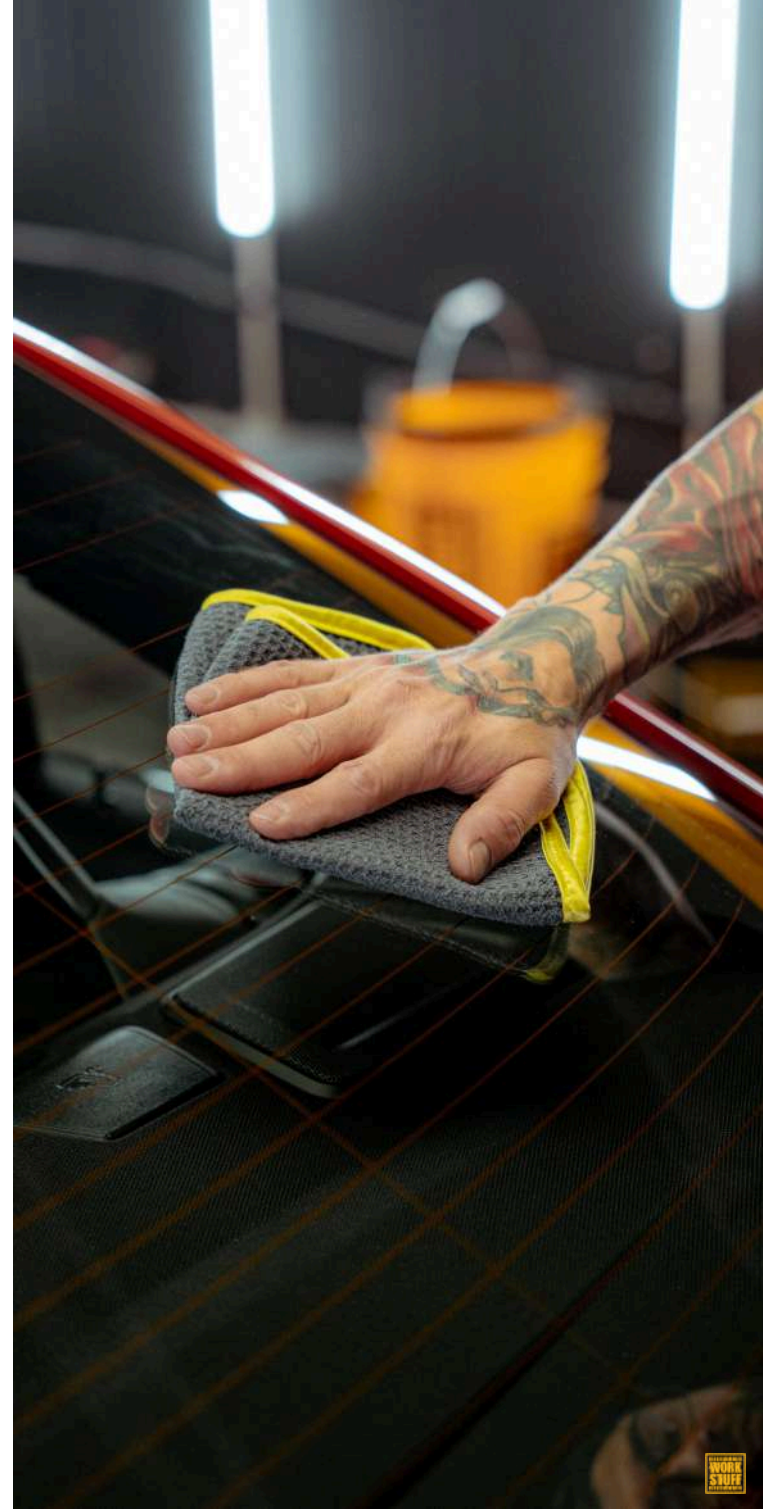

ZEPHYR

Glass

A top-quality waffle weave microfiber towel perfect for cleaning car windows and other glass surfaces. The unique waffle structure of this towel ensures that it leaves no scratches, streaks or stains on the glass surface. Made from highly absorbent microfiber material, it effectively absorbs excess water from the cleaned surface. The towel's compact size and density of 400g/m² make it perfect for hand cleaning upholstery and other interior car surfaces.

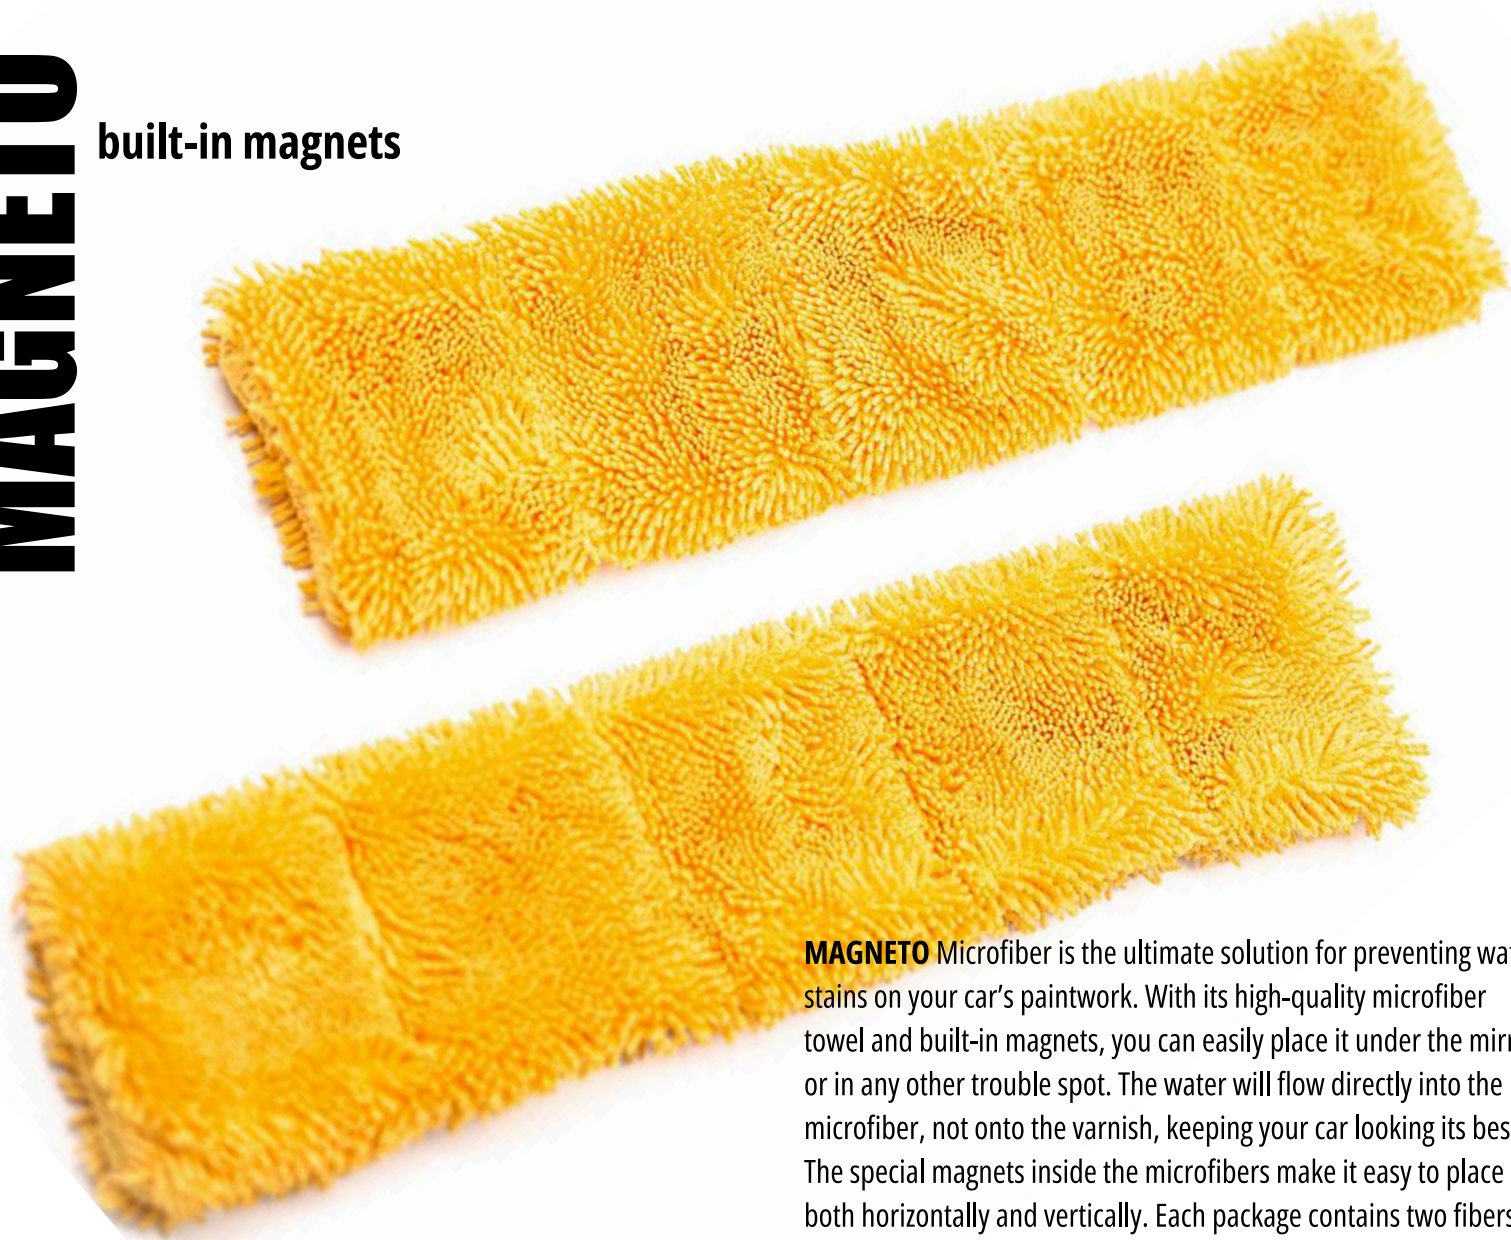

Available in: **1** **3**

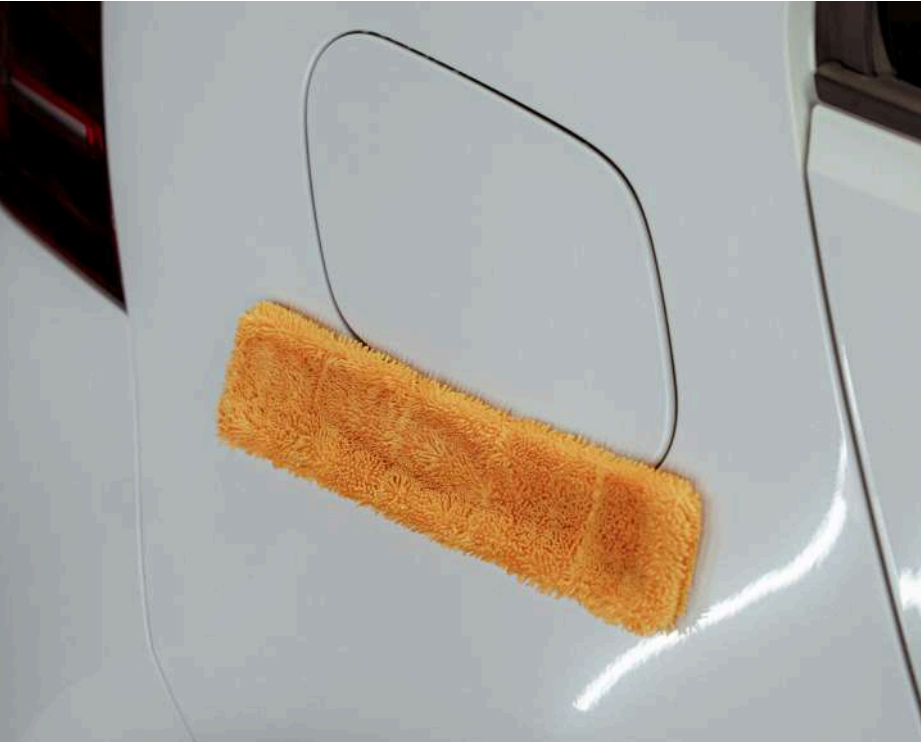

MAGNETO

built-in magnets

MAGNETO Microfiber is the ultimate solution for preventing water stains on your car's paintwork. With its high-quality microfiber towel and built-in magnets, you can easily place it under the mirror or in any other trouble spot. The water will flow directly into the microfiber, not onto the varnish, keeping your car looking its best. The special magnets inside the microfibers make it easy to place both horizontally and vertically. Each package contains two fibers, one for each mirror. Magneto is safe for the paintwork and provides high absorbency to ensure a thorough cleaning.

04

WHEELS

THUNDER / BLIZZARD

Rims

Brush is the ultimate solution for wheel rim cleaning. Unlike ordinary brushes, this Wheel Brush boasts ultra-soft bristles, ensuring gentle yet effective cleaning of your wheel rims. Its ergonomic design and flexibility allow it to effortlessly reach tight spaces, guaranteeing a thorough cleaning experience. What sets it apart is its outstanding chemical resistance ensuring long-lasting durability.

Available in:
45 cm 
36 cm 

SQUALL / SQUALLY

Rims

With its dense and delicate microfiber bristles, this brush is designed to gently clean your wheels without leaving scratches or marks. Plus, its high absorbency and large washing area make for a faster and more efficient cleaning experience. We also added a special sponge lining to the handle for extra comfort during use.

Available in:

46 cm

38 cm

CYCLONE

Tires

This compact and ergonomic brush is designed specifically for applying tire dressing. With a 5 cm diameter and 1.5 cm bristle height, it ensures precise and even application of liquid, gel and cream dressings. The brush comes with a stand to keep it in top shape and prevent deformation, making it a reliable tool for maintaining a clean and polished look on your tires.

CLEAN HANDS APPLICATOR

Tires

The ultimate solution for applying tire dressing with ease and precision. Our high-quality sponge and ergonomic shape are designed to fit perfectly in your hand, providing a comfortable and efficient application experience. The applicator features a durable plastic handle that ensures a secure grip while applying tire dressing.

MONSOON

Wheels

The MONSOON brush is a versatile tool for thorough wheel cleaning, covering rims, tires, and wheel arches. Its medium-hard, flexible bristles tackle stubborn dirt and brake dust while being gentle enough to prevent scratches, even on delicate surfaces. Designed to withstand harsh chemicals, it maintains its shape and effectiveness through repeated use. With a compact, ergonomic design and anti-slip handle, MONSOON ensures a secure grip and easy storage thanks to a built-in hanging hole.

WILLY WILLY

Tires

The WILLY WILLY brush is designed for efficient tire cleaning and excels in reaching hard-to-clean areas like wheel arches. Its compact size and firm, flexible bristles make it perfect for scrubbing tires with various tread patterns, even on lower vehicles. The ergonomic design ensures a comfortable grip, while its shape conforms to tires for thorough cleaning, including removing old dressing residues. After use, simply rinse and hang it by the hole in the handle for easy storage.

PRO WOOL PAD

Polishing Pad

Pro Wool is a polishing pad made from 100% sheep's wool. Between the wool and the hook-and-loop fastener, there is an open-cell, soft layer, which ensures more stable operation and reduced vibrations. The low temperature during polishing allows for more aggressive work, resulting in better paint correction.

The increased cutting power is also due to its short, bristled wool fibers. Pro Wool provides very good ventilation, reducing the risk of burning the paint. As all wool products tend to shed fibers, it is recommended to thoroughly blow out the pad with compressed air and properly condition it before the first use. This will help avoid shedding fibers during work.

06

CLAYS

Designed with a durable polymer layer, this mitt can be used multiple times and effectively eliminates tough contaminants such as tar, resin, and insect marks. Its ergonomic design allows for easy maneuvering and use on even the most intricate surfaces. To use the CLAY MITT, simply wash your vehicle, soak the mitt in water or shampoo and water solution, move it across and along the surface with light pressure, and rinse the mitt regularly. After use, wash and dry your vehicle.

CLAY MITT

Clay

CLAY BLOCK

Clay

This versatile tool effectively removes stubborn contaminants such as tar, resin, and asphalt, along with other dirt that traditional cleaning methods cannot handle. This helps prevent scratches in your paint job and ensures that your polish and wax work more effectively. Additionally, using a clay bar helps maintain the integrity of any protective coating you apply to the finish and keeps your car's surface clean and free of impurities. Our Clay Block is a durable polymer-layered sponge that's perfect for achieving a smooth, spotless finish every time.

DOT/SPOT CLAY BAR

Clay

The perfect solution for decontaminating your car's surface with a gentle touch. This medium-hard bar effectively removes impurities such as brake dust, tar, and tree resins, leaving a smooth and refined finish on your vehicle.

With high plasticity and a pleasant fruit aroma, Clay Bar provides a comfortable and enjoyable decontamination experience. Conveniently packaged in a plastic box, this product is easy to store and remains clean and ready to use at all times.

HANDY WAX

Applicator

the perfect tool for applying wax to your car's surface. Made with a delicate sponge and a handy handle, this applicator is designed to speed up the waxing process compared to traditional applicators.

HANDY WAX+

Applicator

is an essential tool for effortlessly and effectively waxing your car's bodywork, ensuring a smooth and polished finish. Its unique design, featuring two types of sponge, allows for faster work compared to traditional tools. The soft sponge is gentle on your car's surface, while the hard sponge provides better working comfort.

ECLIPSE

Applicator

This microfiber applicator is designed with a finger pocket for better grip, ensuring that you have complete control while applying various types of car care products such as waxes, cleaners, and sealants. Made of high-quality microfiber.

HANDY LEATHER

Brush

The Handy Leather Brush features a carefully selected blend of bristles, with 30% natural and 70% synthetic materials. This combination allows the brush to effectively remove dirt and grime, while also being gentle enough to protect delicate leather surfaces. The ergonomic, easy-grip shape of the brush ensures that you can easily maneuver it to reach even the most hard-to-reach areas.

COATING

Applicator

Is an essential tool for applying ceramic and quartz coatings to your vehicle or motorcycle. Its cube shape with side slits accommodates the Suede microfiber, ensuring an even and precise application of the coating. Measuring at 9cm x 4cm x 2.5cm.

WORK GLOVES

Gloves

These durable 'WORK GLOVES' in black, perfect for protecting your hands in tough working conditions. Made from high-quality nitrile, they provide reliable protection against chemicals and other harmful substances.
